

9800

9800 with
full-motion
video topper

Triton's 9800 Series represents a revolutionary way of thinking in ATMs. With a sleek design and advanced revenue and compliance features, the 9800 is perfectly suited for both high-end retailers and financial institutions.

Unlike many ATMs in the field today that are outdated and in need of expensive upgrades in order to be regulation compliant, the 9800 is an economical, state-of-the-art option that's ready to perform from day one. Standard features like EPP (Encrypting PIN Pad), Triple DES software and full

The affordable alternative to high-end ATMs.

ADA compliance make it a very attractive alternative over more expensive ATMs.

The 9800's 12.1" LCD transaction screen enables customized video clips, ads, and in-store promotions to be viewed continuously during ATM transactions—while an optional full-motion video topper provides additional advertising and branding opportunities.

With multiple communication options and the look and feel of a traditional ATM, Triton's 9800 is the perfect adaptable, full-service ATM that high-end retailers and financial institutions can afford.

9800 IN DETAIL

A revolutionary way of thinking in ATMs
